

PurePOWER Technologies, *A Navistar Company*, Technical Scholarship

The scholarship is established by PurePower Technologies to award a senior student pursuing a two-year technical degree at Midlands Technical College. Criteria include a 3.0 GPA and participation in service activities while in high school. An essay is required. Students who are awarded this scholarship will be given priority for internship opportunities during their 3rd and/or 4th semesters of technical school. Internships will be chosen through interviews at a later date.

Applicants must complete all portions of the general Foundation application and write a brief (1-2 typed pages) essay addressing the following question:

Essay question:

From the advancement of new technology to the outsourcing of jobs, in the past 25 years manufacturing in America has undergone an enormous transformation. What role do you see modern manufacturing playing in the future of this country and how do you plan to contribute?

For 2015, the value of each of this award is \$1000.
